SATURDAY
DAILY DESCRIPTIONS

BARTHOLOMEW ISLAND

GALAPAGOS
HABITAT | **1** |
(Departure)

(2 hours aprox.)

SULLIVAN BAY | **3** |

Here you can see some amazing lava formations, it is the product of a volcanic eruption in 1903.

BARTHOLOMEW
ISLAND | **2** |

Bartholomew is an island surrounded by turquoise waters and beautiful beaches. The island is a now extinct volcano with a variety of red, orange, green, black and shiny volcanic formations.

What to see ?

Pinnacle Rock. Galapagos penguins, sea turtles, green sea turtles, sharks, white-tip reef sharks, tropical fish, sea lions and many other unique marine species.

What to do?

Trekking, snorkeling, swimming and leisure.

SUNDAY
DAILY DESCRIPTIONS

**SANTA CRUZ
ISLAND**

GALAPAGOS
HABITAT | **1** |

(Departure)

DRAGON HILL | **3** |

One of the few visitor sites directly related to a conservation program led by the Charles Darwin Foundation and the Galapagos National Park. It was named after the land iguanas, considered the Galápagos' "dragons".

(2 hours aprox.)

CHINESE HAT | **2** |

This is a very small volcano close to Santiago Island, surrounded by small spatter cones. It's one of the smallest Galapagos Islands but don't be fooled: it has a unique visitor site with an unforgettable view!

What to see ?

Sea lions, wading birds, tropical fish, sea stars, penguins, land iguanas, flamingos and other shore birds.

What to do?

Trekking, snorkeling, swimming and leisure.
